

MMC Accepted File Formats:

Below is a list of programs that we accept. The programs marked with an * are our preferred format.

Adobe Illustrator CS4*

Adobe Photoshop CS4*

Adobe Indesign CS4

Corel Draw

QuarkXpress

Accepted File Extensions: EPS, AI, PDF, PSD, QXD, CDR, IND, TIF

Non Accepted Extensions: DOC, PUB, PNG, BMP, GIF

Layout

With vector files we prefer the artwork to be set up in either a 1/2"=1' scale or 1"=1' scale.

With rasterized artwork please build any image over 20 sq. ft. to a 1"=1' scale @ a minimum of 300 DPI. For optimal quality, please adjust the DPI as high as you can without exceeding a 250mb file size, usually between 300-1200 DPI. Be sure to inspect your finished artwork at 100% for quality issues before uploading.

Any image under 20 square feet may be build to full scale at 100-300 DPI. For best results try to keep the DPI above 50 at this scale.

Following these specifications should prevent any quality issues in the printing as long as the images are crisp and clear when viewed at 100%.
